双面车顶三面翻

DOUBLE SIDES TAXI TOP TRIVISION

Description:

Taxi top trivision is the latest product of our company. It is used for taxi top ads instead of old light box used in common.

Advantages:

MORE SPACE, MORE INCOME

It can show 6 pictures continuously(3 pictures each side) which increases the space for ads and increase your income from ads.

LED LIGHT

The LED light can make the ads more attractive in the dark. There are two light box in the ends of the product and you can put the "taxi" logo. LED light is brighter and has a longer working life.

EASY TO INSTALL AND NO DAMAGE TO CAR

There are strong magnets on the bottom of the stand of this product., so the only thing you need to do to instal l the product is to "put" it on the top of the car.(CDF-15M)
